Do you want us to review Ben's updates? Do you intend to generate the IAP from the field?

204s and the other the forms created thus far (REOC supports field ops). The actual incident org chart (Area/Incident Command) is still pending per R8's lead.

Hi Harry/Althea,

We've developed a modified R8 Incident Action Plan (IAP), and want to get your thoughts on how we need to coordinate on this. Does it need to go through Area Command? Do you want us to add info for your regions in addition to what we have? The document is very bare bones at this point, and will be improving over the coming days. Let us know asap so we can continue with distribution! Thanks!

Joni Sandoval
